Flight Instruction:

BAYSIDE R/C Club has qualified flight instructors to help you get started, solo or just improve your overall skill. These members are the foundation of the club and spend much of their personal time making the club a success. Primary instructors are available on a regular basis. Secondary instructors can help out on a case by case basis.

Prez Sez..

Hi Everyone,

Happy New Year to you and your families! I hope this year brings you all good health and happiness, and a new flying field would be nice as well!

The annual Christmas party went well with approximately twenty eight attendees. I got there early so I could turn on all the heaters and start the fire in the wood burning stove. Last year is was pretty cold inside while we ate and by the low number of female attendees This year, I think that was to blame.

As busy as everyone is lately and it being a work night, I was worried about how many food items would be made for the pot luck. As the night progressed we had more people than food just as suspected. Had to make a trip to Lucky's to by more food which worked out well. So at our next meeting I will suggest that we have the party Catered next year. Meaning , we order a full turkey dinner from the market before hand and pick it up the day of the party. Then we can just bring drinks and deserts next year. Thanks to everyone that helped out by bringing something to the party! It was good to see you all!

I made a trip out to the storage yard that is holding our club belongings over in Palo Alto. The Livermore Flying Electrons were to meet me there to pick up the fencing that we donated to them. They didn't take it all but a good part of the fencing. I took all the items out to take an inventory with phot's. I will try and get the pictures posted on this Flightline or our web site. So if you're interested in one of the items we have in storage let me know. Here is a brief list:

- Picnic tables 4 each
- large assembly tables 6 each
- Craftsman Lawn Mower
- Red Tuff Shed- two
- ground compactor gas powered
- many rakes and shovels
- fencing, long lengths
- well pump
- rolling Chalk dispenser to make lines
- rolling weed eater dispensing tank, seed dispenser etc,,
- three heavy duty steel bleacher sections
- we still have all the shade tarps, but we just need to store them for future use.
- shelving from the large grey shed
- one large gray shed (might work out a deal with the storage shed owner on this one to pay for the years rent)

I will hold the generator and BBQ for now. Their are more items I will list later on.

There is no news on a flying field at this time. Bart is finally starting to work on our old field site. At least that's what I saw when I passed by over a month ago!

Take care and see you in the New Year

Pete

Party Shots

Here are a few random photos I shot at the party. There were a few once-a-year faces there. It was good to see you all again.

I didn't get everyone smiling at the same time, but mostly we had a good time. "Mostly" because my autonomous flying machine became a bit too autonomous, and there was a bit of bush-bashing involved in its retrieval (it wasn't badly damaged and I had it fixed in 1/2 an hour).
